

AWS Consultant

Crawley, West Sussex, UK - Up to £60,000 (depending on skills) + Benefits

Your new company

We're a vibrant technology solutions provider delivering transformation projects across the UK. Our excellent reputation has built us a diverse user base that uses our solutions to engage their customers, inspire their teams and transform their businesses.

Our AWS solutions are particularly well regarded and, as such, we're seeking engineers in this space with operational and technical expertise who will help to deliver a world-class AWS migration, implementation and optimisation experience.

Your new role

You'll join a team of highly experienced IT professionals and will report directly to our Head of Services. You'll be tasked with developing new methods and technical solutions to effectively migrate and run Windows, Linux, security & monitoring systems in AWS. Enhancing our existing offering, your job will include the improvement of existing solutions and the creation of new solutions for clients as the AWS product set evolves and matures. You will be engaging stakeholders at all levels in our clients and delivering a wide variety of solutions to a broad set of industries / verticals. We're also enhancing our automation stack using Linux, Ansible & proprietary DevOps approaches and you'll be helping design & implement exciting new technologies.

What you'll need to succeed

As the successful candidate you'll display a real passion for cloud technology, automation, open source technologies & security. Your technical background will cover infrastructure engineering, ideally with some DevOps background. AWS certifications will improve your chances of success. Your knowledge in this space will be grown extensively in this role and we will support your development and learning. Knowledge and experience working with or implementing:

- AWS technologies & solutions
- Linux
- monitoring solutions using Zabbix & Ansible
- cloud migration technologies like CloudEndure

will be advantageous and you will grow and learn in all these areas and more in this role.

What you'll get in return

You'll be rewarded with salary of up to £60,000 + benefits and the rare opportunity to work in a client facing role, facing unique challenges. You'll be supported by a closely-knit management team and cutting-edge systems and technology, based in beautiful offices with on-site parking in Crawley.

What you need to do now

If you're interested in this role, forward an up-to-date copy of your CV, or call us now. If this job isn't quite right for you but you are looking for a new position, please contact us for a confidential discussion on your career.
