Continuous Vulnerability Assessment

IDENTIFY, EVALUATE AND REMEDIATE VULNERABILITY & RISK CONTINUOUSLY ACROSS ALL ENVIRONMENTS

Accelerating your innovation should not mean having to compromise your security.

With Continuous Vulnerability Assessment from ITHQ, using InsightVM from Rapid7, your business can grow confidently and securely, without hindering performance of networks, apps or your teams.

RAPID7

PRIORITISE RISK MANAGEMENT FOR MAXIMUM COMPLIANCE & SLA DELIVERY

- **Identify singular, most effective actions needed to minimise risks as they emerge**

  Automate containment & patch management, and utilise data from existing systems

- **Track all attack surfaces including known & unknown assets**

  Integrate ticketing for easy IT and DevOps teams remediation tasks, aligned with goals and SLAs

- **Customise live dashboards & reporting**

  Get full visibility of all vulnerabilities with built-in CVE intelligence; share & celebrate progress between teams and leadership

Lightweight endpoint agent
Auto-collect data from all endpoints, including remote, sensitive & rarely used assets

Live dashboards
See, share and query live views plus easy progress tracking

Real risk prioritisation
Actionable 1-1000 scale prioritised vulnerability alerts

IT-integrated remediation projects
Assign & track remediation duties & progress in real-time

Cloud & virtual infrastrucutre assessment
Full visibility into risk across physical, virtual, & cloud

Attack surface monitoring with Project Sonar
No shadow IT. See risk exposure across every external-facing asset, whether known or uknown

Container security
Discover & correlate deployed containers to assets, for both container and host security

Integrated threat feed
See current threats most relevant to your business & drive critical vulnerability management accordingly

Goals & SLAs
Map progress to pre-defined compliance goals & SLAs

Easy-to-use RESTful API
Automate virtually any aspect of vulnerability management

Policy assessment
Modify existing benchmarks or define new security policies

Automation-assisted patching
Automate remediation tasks including patching and rechecking for success

Automated containment
Automatically contain vulnerabilities until you're ready to remediate them

RAPID7 & ITHQ SOLUTION

WE SELECT OUR PARTNERS INDIVIDUALLY BASED ON PERFORMANCE, INTEGRATION, INNOVATION AND VALUE INDICATORS.

Rapid7 believes security should be a reality for all organizations. They are committed to helping build security into the heart of every business.

Their solutions simplify the complex, allowing security teams to work more effectively to reduce vulnerabilities, monitor for malicious behavior, investigate and shut down attacks, and automate routine tasks.

Over 9,000 customers rely on Rapid7 technology, services and research to improve security outcomes and securely advance their innovation.

Recognised as leaders by Forrester and Gartner, Rapid7 have also received multiple accolades from Frost & Sullivan, SC Awards and the Cyber Security Excellence Awards, among others.
